

DIGITAL CLASSROOM IS THE FUTURE

62% Students believe that digital learning technology somewhat or greatly increases engagement with course materials.

75% Teachers believe digital learning content will replace printed textbooks within the next 10 years.

CURRENT DIGITAL ADOPTION

63% K-12 teachers use technology in the classroom daily.

79% Students daily use devices for learning.

DIGITAL LEARNING IS CHALLENGING!

34% Education professionals cite internet safety as the #1 Digital Challenge.

32.5% Education professionals find Device Management as their biggest challenge.

IMPACT OF DIGITIZATION

- 1** K-12 Schools Experienced 122 Cyber Attacks in 2018.
- 2** A New Cybersecurity Incident Strikes K-12 Schools Nearly Every Three Days.
- 3** Administrators don't have control on the way students and teachers access devices and consume content.

MITIGATE RISK

A Mobile Device Management (MDM) solution can help you manage and secure your devices, data and apps.

WHAT MDM CAN DO ?

- Device, content and application management
- Enforce institute level security policies
- Remotely control managed devices
- Control student's access to unproductive websites, applications and digital resources
- Device health monitoring, location tracking and security alerts
- Ensure device-level security with passcode and remote device lock/unlock

Introducing Scalefusion:

World's first context-aware MDM solution that works best for every use case.
